

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : 6,717,357 B2
APPLICATION NO. : 09/882247
DATED : April 6, 2004
INVENTOR(S) : Kenichi Okuyama, Kenichi Nagayama and Toru Moriya

Page 1 of 2

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Claims 1-5 are amended as follows:

1. An organic electroluminescent display panel comprising:
a substrate including a display panel region having a plurality of organic electroluminescent devices ~~each formed of a plurality of display electrodes and an organic material layer, which are stacked;~~
first electrodes formed on the substrate;
an organic material layer formed on the first electrodes;
second electrodes formed on the organic material layer; and
a plurality of electrically conductive connecting lines electrically connected to ~~said the second~~ electrodes and formed in a domain surrounding the display panel region on ~~said the~~ substrate;
wherein each of the organic electroluminescent devices is formed of the first electrodes, the organic material layer and the second electrodes,
wherein ~~said the~~ electrically conductive connecting lines are lower in resistance than ~~said the second~~ electrodes.
2. The organic electroluminescent display panel according to claim 1, wherein said connecting lines are constituted by electrically conductive thick portions that are thicker than said second electrodes.
3. The organic electroluminescent display panel according to claim 1, wherein the surface area of ~~the an individual~~ connecting ~~lines~~ line is larger than ~~said electrodes that~~ of an individual second electrode.
4. The organic electroluminescent display panel according to claim 1, wherein said connecting lines are made of a material that is lower in resistance than a material of said second electrodes.

INVENTOR(S) : Kenichi Okuyama, Kenichi Nagayama and Toru Moriya

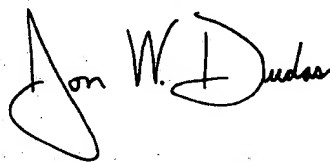

Page 2 of 2

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

5. The organic electroluminescent display panel according to claim 2, wherein a total thickness of said connecting lines and said thick portions is larger than a film thickness of said second electrodes ~~electrode provided on a topmost surface.~~

Signed and Sealed this

Twenty-second Day of May, 2007

A handwritten signature in black ink, appearing to read "Jon W. Dudas", is written over a faint, circular embossed seal of the United States Patent and Trademark Office.
